Identification

GHS product identifier

Version #
03

Issue Date
April 16, 2019

Recommended use
Pavement Crack and Joint Sealing

Recommended Restrictions
Not available.

Manufacturer:
Right/Pointe, LLC

Manufacturer Address:
234 Harvestore Drive
Dekalb, IL 60115 USA

Contact Name:
Philippe Gauthier

Telephone:
815-754-5700

E-mail:
Philippeg@rightpointe.com

CHEMTREC:
800-424-9300

Hazards Identification

GHS classification

Physical hazards
Not classified.

Health hazards
Not classified.

Environmental hazards
Not classified.

GHS label elements

Signal word
Not applicable.

Hazard Symbol
None.

Hazard statement
Not applicable.

Prevention
Not applicable.

Response
Specific treatments see Section 4 of this MSDS.

Storage
Not applicable.

Disposal
Dispose of contents / container in accordance with local / regional / national / international regulations.

First Aid Measures

First aid procedures

Eye
Get medical attention if irritation develops and persists.
Skin
In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Thoroughly wash (or discard) clothing and shoes before reuse.

Inhalation
Not available.

Ingestion
Rinse mouth. Do not induce vomiting. Call a POISON CENTER or doctor / physician if you feel unwell.

Notes to physician
In case of ingestion, the decision of whether or not to induce vomiting should be made by the attending physician. Certain pre-existing conditions may make workers particularly susceptible to the effects of this chemical: asthma, allergies, impaired pulmonary function.

General advice
If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Discard any shoes or clothing items that cannot be decontaminated.

Fire-fighting Measures

Flammable properties
Not flammable by OSHA criteria.

Extinguishing media
Suitable extinguishing media
Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2). Addition of water or foam to the fire may cause frothing.

Unsuitable extinguishing media
Do not use a solid water stream as it may scatter and spread fire.

Protection of firefighters
Specific hazards arising from the chemical
Development of hazardous combustion gases or vapors possible in the event of a fire. The following may develop: Acrolein.

Protective equipment and precautions for firefighters
Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA. Structural firefighters' protective clothing will only provide limited protection.

Fire fighting equipment/instructions
In case of fire and/or explosion do not breathe fumes. In the event of fire, cool tanks with water spray. By fire, toxic gases may be formed (Cox, NOx). Keep run-off water out of sewers and water sources. Dike for water control.

Specific methods
In the event of fire and/or explosion do not breathe fumes. In the event of fire, cool tanks with water spray. Use water spray to cool unopened containers.

Hazardous combustion products
Oxides of carbon and nitrogen. Sulfur dioxide.

Accidental Release Measures

Personal precautions
Keep unnecessary personnel away. Ventilate closed spaces before entering them. Do not touch or walk through spilled material.

Environmental precautions
Runoff or release to sewer, waterway, or ground is forbidden.

Methods for containment
ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area).

Methods for cleaning up
Dike far ahead of spill for later disposal. Collect and dispose of spillage as indicated in section 13 of this MSDS.

Never return spills in original containers for re-use.

Handling and Storage

Handling
The product is non-combustible. If heated, irritating vapors may be formed. Wash hands thoroughly after handling. Observe good industrial hygiene practices.

Storage
Prevent electrostatic build-up by using common bonding and grounding techniques. Store in a well-ventilated place. Keep the container tightly closed and dry. Keep out of the reach of children.

Exposure Controls / Personal Protection

Control parameters
US. ACGIH Threshold Limit Values

### Personal protective equipment

- **Eye/face protection**: Wear safety glasses: chemical goggles (if splashing is possible). Wear chemical goggles: face shield (if handling molten material).
- **Skin protection**: Wear suitable protective clothing and eye/face protection. Use of an impervious apron is recommended.
- **Respiratory protection**: When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.
- **General hygiene considerations**: When using do not smoke. Avoid contact with eyes. Avoid contact with skin. Keep away from food and drink. Handle in accordance with good industrial hygiene and safety practice.

### Physical and Chemical Properties

- **Appearance**: Solid.
- **Physical state**: Solid.
- **Form**: Solid.
- **Color**: Black. Dark brown.
- **Odor**: Product is a black, semi-solid with a burnt tar odor.
- **Odor threshold**: Not available.
- **pH**: Not available.
- **Vapor pressure**: Not available.
- **Vapor density**: Not available.
- **Boiling point**: > 800 °F (> 426.7 °C)
- **Melting point / Freezing point**: 150-250 °F (65.6 – 121.1 °C) ASTM D36 Softening Point
- **Solubility (water)**: Not available.
- **Specific gravity**: 1 – 1.9
- **Relative density**: Not available.
- **Flash Point**: > 550 °F (> 287.8 °C)
- **Flammability limits in air, upper, % by volume**: Not available.
- **Flammability limits in air, lower, % by volume**: Not available.
- **Auto-ignition temperature**: > 700 °F (> 371.1 °C)
- **VOC**: 0 %
- **Percent volatile**: 0 %
- **Density**: N8.3 – 15.8 lb/gal
- **Stability and Reactivity**
  - **Chemical stability**: Stable
  - **Possibility of hazardous reactions**: Hazardous polymerization does not occur.
  - **Conditions to avoid**: Strong oxidizing agents.
  - **Incompatible materials**: Incompatible with oxidizing agents.
  - **Hazardous decomposition products**: Upon decomposition, product emits acrid dense smoke with carbon dioxide, carbon monoxide, trace oxides of nitrogen and sulfur, and water.

### Toxicological Information

- **Routes of exposure**: Inhalations. Skin contact.
### Chronic effects
- Prolonged inhalation may be harmful. May cause eczema-like skin disorders (dermatitis).

### Skin corrosion / irritation
- Defats the skin. Causes irritation.

### Serious eye damage / eye irritation
- Irritating to eyes.

### Other information
- Not available.

### Ecological Information
#### Ecotoxicity
- This product has no known eco-toxicological effects.

#### Environmental effects
- An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

#### Persistence and degradability
- Not available.

#### Bioaccumulative potential
- Not available.

#### Mobility in soil
- Not available.

#### Other adverse effects
- Not available.

### Disposal Considerations
#### Disposal methods
- Dispose of contents / container in accordance with local / regional / national / international regulations.

#### Waste codes
- Not applicable.

### Transport Information
#### DOT
- Basic shipping requirements:
- Special precautions
  - Not regulated as dangerous goods.

### Regulatory Information
#### CERCLA (Superfund) reportable quantity
- None

#### Superfund Amendments and Reauthorization Act of 1986 (SARA)
- Immediate Hazard – Yes
- Delayed Hazard – Yes
- Fire Hazard – No
- Pressure Hazard – No
- Reactivity Hazard – No

#### Section 302 extremely hazardous substance
- No

#### Section 311 hazardous chemical
- No

*A “Yes” indicates that all components of this product comply with the inventory requirements administered by the governing country(s).

### State regulations
#### US – California Proposition 65 – CRT: Listed date/Carcinogenic substance
- ASPHALT (CAS 8052-54-4) Listed: January 1, 1990 Carcinogenic.

#### US – Minnesota Haz Subs: Cancer designation applies
- ASPHALT (CAS 8052-54-4) Cancer designation applies.
- DISTILLATES (PETROLEUM), HYDROTREATED Cancer designation applies.
HEAVY NAPTHENIC (CAS 64742-52-5)

US – Minnesota Haz Subs: Hazardous substance
ASPHALT (CAS 8052-42-4) Hazardous substance.

US – New Jersey RTK – Substances: Listed substance
ASPHALT (CAS 8052-42-4) Listed.

US – Pennsylvania RTK – Hazardous Substances: Listed substance
ASPHALT (CAS 8052-42-4) Listed.

US – Pennsylvania RTK – Hazardous Substances: Special hazard
ASPHALT (CAS 8052-42-4) Special hazard.
